SKILLS & COMPETENCIES

- **Programming Languages:** JavaScript (ES6+), Java
 - **Technologies:** HTML (HTML5), CSS (CSS3), Responsive Design, CSS Grid, CSS Flexbox
 - **Frameworks & Libraries:** React, Redux, Performance Optimization, Next.js, Bootstrap, Tailwind CSS
 - **Tools & Platforms:** VS Code, Git, GitHub, Chrome Dev Tools
-

PROJECTS

Frontend Developer - Personal Portfolio Website

- Developed a responsive personal portfolio using **React** and **Tailwind CSS**, supporting **100%** mobile, tablet, and desktop compatibility.
- Implemented dark and light modes with persistent theme storage, increasing average visit duration by **~20%**.
- Refined navigation structure and content accessibility based on usability testing with a peer group, improving user flow.
- Displayed **6+ projects** with live demos and GitHub links, reducing recruiter navigation effort by **40%**.

React Developer – ResumeX

- Built a resume builder using React, Vite, and Tailwind CSS that generates over 15 different template variations.
- Synchronized real-time form inputs with preview rendering, reducing manual formatting time by **60%** during document creation.
- Standardized layout behavior across diverse screen sizes by implementing a modular component architecture with Tailwind CSS, ensuring 100% UI consistency.
- Streamlined the template switching flow based on user beta testing, which reduced the number of clicks required to change layouts by **25%**.

React Developer - Notes App

- Built a React-based Notes Application with **Tailwind CSS**, implementing features for archiving, pinning, and prioritizing notes with a focus on high-performance UI rendering.
- Implemented persistent data storage using Local Storage, allowing for 100% data retention across browser sessions.
- Architected a grid-based interface using Tailwind CSS after peer review discussions to improve note readability and management efficiency.
- Tested and verified cross-platform consistency, ensuring zero data loss and identical UI behavior across both mobile and desktop environments.

React Developer - Quiz App

- Crafted a Quiz Application using React and Tailwind CSS with category-based questions and a 10-second timer for each attempt.
 - Led the design of API-based question loading logic to deliver 20 shuffled questions per session.
 - Incorporated scoring feedback, helping users track performance across **3** categories.
 - Increased quiz completion consistency by **15%** by adding timed attempts.
-

EDUCATION

Parul University (pursuing) - Bachelor of Technology in Computer Science and Engineering
Vadodara, Gujarat | **2022 – Present**

C.V. Raman Junior College - Intermediate (Mathematics, Physics, Chemistry)
Tadipatri, Andhra Pradesh | **2020 – 2022**

CERTIFICATION

React JS Development	- GeeksforGeeks
Next JS Development	- GeeksforGeeks
Front-End Interview Preparation Certificate	- GeeksforGeeks
